

## GOOD ADVICE.

The *Silver State*, which has been in the front rank battling for the cause of the people, comments upon the movement to hold a convention in Reno and nominate a People's party State ticket as follows:

"While the Silver party in the last campaign did not endorse the People's party platform in its entirety, it didn't miss it much, and did endorse and carried the State for its Presidential and Vice Presidential nominees; therefore, about all the difference between the Silver party and the People's party at the present time is simply a different way of spelling the party's name. When the Silver party was organized it was for the specific purpose of carrying the State against both Harrison and Cleveland. That was done.

"It has been evident for some time that many in the Silver party were anxious to come out squarely and place the party in the Populist camp, and this sentiment has been encouraged by the old line Republicans and Democrats in the western part of the State, with the hope that it would bring about a split in the Silver party and in that way enable the g. o. p. to elect their ticket this fall, but in this they will be badly mistaken. The independent voters of the State are not going to get in a squabble over the name of their party or over the offices that are at stake. The Silver party holds its State Convention in Carson on the 4th of September. Out of the 201 delegates who will be in attendance, it is safe to say that the Populist sentiment will be ably and well represented; therefore, it looks to us as if the work of the Reno convention, which is called for two days later, might as well be attended to in Carson and save time. If the members of the Silver party desire to land the party into the People's party camp, it is their duty to elect such delegates to the Carson convention as will reflect their wishes and carry them out. We, who stood together in the last campaign and won such a glorious victory under the banner of the Silver party of Nevada, must not allow our ranks to be broken or weakened simply over the name of the party.

"The writer of this article has spent as much time and taken as much interest in creating an independent spirit among the voters of the State as any one in it, and he never has and does not now ask for any political recognition at the hands of any party; he only has the interest of the true motive of the Silver party at heart and does not want to see brother arrayed against brother in a political strife, as it would be if there should be a Populist and Silver ticket in the field this year. We say to brethren in the western part of the State, don't get rattled, pay no attention to the sneering carping of the old party fossils. Let us present a solid front under the banner of free coinage and reform, and not quarrel over the name of our party at the present time.

"It would be well to have a State organization of the People's party so as to be ready to take hold of the national fight in 1896, as Nevada will undoubtedly then do as she did in 1892, cast her electoral votes for the nominees of the People's party, the only party that has the same monetary plank in every State in the Union, but don't let us get matters mixed up this year by having two tickets in the field.

"The *Silver State* believes in the grand principles of majority rule, and we again repeat, don't do that which will place two tickets in the field against the Wall Street trusts, rather take the only sensible course, and that is settle the question in the Carson convention and let the Reno convention be simply a ratification meeting."

## AUTHORIZED LAWLESSNESS.

W. D. Lawton, one of the Trustees of the city of Sacramento, in a communication published in the *Record-Union* relating to the late strike, says:

"On one day of this month (July) the soldiers stopped the Chief of Police, interfered with the Police Department, the Justice Court, pulled a gun on the Chief Engineer of the water works while on duty, prevented the coal wagon from hauling coal to the water works building, fired two shots at the city jail; in fact the complaints made to the Trustees were entirely too numerous to be mentioned here.

"This is what may be termed 'legalized lawlessness.' It is authorized by somebody in command of the troops, as the latter were simply obeying orders. Was this somebody the President of the United States, General Schofield or the United States Marshal? The perpetrators were not arrested, no charge was preferred against them, in fact they were privileged characters.

"As martial law was proclaimed in Sacramento military rule was supreme and the troops were responsible only to their superiors for their conduct. Here the conditions were different. The civil law had not been suspended, yet a soldier who fired a gun at or over an unarmed citizen on the public street was not arrested, though the State law makes the discharge of firearms on the public streets a misdemeanor punishable by fine or imprisonment or both. The soldier was obeying orders, but in doing so committed an offense for which a citizen would have been arrested.

"A double-barreled administration of the laws is reprehensible. The framers of the statutes made no distinction between civilians and soldiers. All are supposed to be amenable to the law, yet for some reason one can do with impunity and without risk of being arrested what the other would be fined or imprisoned or both for doing.

## THE CHINA-JAPAN WAR.

## Chinese Vessels Captured and Sunk.

## STARTLING DEVELOPMENTS.

## A Witness in the Woodland Examination Admits Grave Charges.

## THE ALLEGED TRAIN WRECKERS.

What a Witness Expected for his Evidence.

WOODLAND, Cal., July 31.—The preliminary examination of the five A. R. U. men accused of train wrecking was resumed this morning. Almost the entire morning session was devoted to the testimony of George B. Katzenstein, President of the Citizens' Protective Association, formed at Sacramento during the strike. The witness told of several conferences with the prisoner, Harry Knox, Chairman of the Strikers' Mediation Committee, but could give no testimony prejudicial to defendants.

John O. Lasher testified to the events leading up to the sending out of the train which was wrecked. He told of the riotous actions of the strikers. He was badly tangled on the cross examination, and was forced to admit that he had told various people that he expected to get \$500 if he testified in a certain way prejudicial to the prisoners.

When the afternoon session was resumed Carroll Cook addressed the court in support of a motion to withdraw witness Lasher and strike out his testimony. Attorney Cook said the prosecution did not desire to secure a conviction of the defendants by tainted evidence. The witness had damaged his evidence by admitting that he had told outside of court that he anticipated a reward of some kind for his giving evidence for the prosecution. Attorney Hart for the defense replied, claiming his right to conclude the cross-examination of witness. He vigorously protested against what he styled an attempt to forbid the defense still further revealing by cross-examination the methods pursued by and the influences back of the prosecution in procuring testimony. The Court ruled in favor of the prosecution on the motion to withdraw the witness.

Attorneys Hart and Gaddis for the defense urged that Lasher should be arrested. After some hesitation the Court finally ordered the witness into custody. Worden asked as a special privilege that he be allowed to occupy the same cell, but his request was not entertained.

V. S. McClatchy, a member of the Citizens' Protective Association, was the next witness. He narrated a conversation with Knox in which the latter said he would not allow any passenger trains to move until the dispute was settled.

J. K. Beebe, the Sacramento manager of the Postal Telegraph Company, was next called. He delivered under a protest and only to avoid a commitment for contempt forty-one telegrams sent by Knox to the members of the A. R. U. urging the strikers to stand firm. The Court adjourned until tomorrow morning.

## The Tariff Yet in a Muddle.

WASHINGTON, July 31.—The prospects of an agreement on the tariff improved today. The Democratic conferees came from a meeting stating that the previous irreconcilable differences were in process of amicable adjustment. The Senators having shown a disposition to meet Representatives half way. Senatorial conferees stated that while they were hopeful of reaching an understanding, nothing was yet accomplished in the conference toward agreement. A Senator said to-night that the tariff bill would be finally agreed upon Monday next and that his bill would virtually be the Senate bill. While no final agreement was made on iron, coal and sugar, yet there was sufficient developed in the conference to show that an agreement could be reached on these three important items which would be acceptable to the Senate and House conferees or to the House Representatives. It is, however, doubtful if it is satisfactory to the Senate.

## Forest Fires Near the Lick Observatory.

SAN JOSE, July 31.—The forest fire which commenced Sunday near Mount Hamilton on Isabel Creek is still raging. All the Lick Observatory professors and all the people in the vicinity are out fighting it. The fire is burning on the north side of the Observatory. A fight is now being made to save the cottages on the hill, the Observatory not being in danger. It has burned over 1,000 acres so far. It is supposed to have started from campers.

## Hung for His Crime.

NORFOLK, Va., July 31.—The first hanging in Norfolk for twenty years took place at noon to-day when Madison Brown (colored) was hanged for the murder of John Dolard about sixteen months ago.

## A JAPANESE VICTORY.

More Chinese Vessels Sunk or Captured Yesterday.

TIENTSIN, July 31.—A naval battle was fought yesterday between Chinese and Japanese fleets and the Japanese sank the warship Chen Yuen. Two large cruisers, supposed to be vessels built for China by Armstrong, were captured or destroyed.

The Chen Yuen was a battleship of 7,400 tons displacement, carrying 4½ inch and compound armor at the water line. Her battery included four 12-inch guns protected by armored breast-works and two smaller Krupp and eleven Hotchkiss canon and tubes for Whitehead torpedoes; two 8¼ inch and one 6-inch Krupp and secondary batteries of Hotchkiss revolving cannon. The ship was built for China at the Statin Works. She was a sister ship of the Ting Yuen and was the most powerful of the Chinese navy, with the exception of the Ling Yuen.

New York, July 31.—The central cable office of the Western Union Telegraph Company has received advices from Hongkong and Shanghai that the Chinese telegraph companies will not receive any telegraphic messages respecting the war between China and Japan.

SHANGHAI, July 31.—At 10 p. m. news reached here of the desperate battle in which the Chen Yuen was sunk. The battle was hotly contested, but the Japanese appear to have handled their guns, ships and torpedoes with more skill than the Chinese. The Chinese fleet engaged carried nearly a thousand men and a large number are reported killed or drowned.

A latter report says few if any of the Chinese engaged in the battle escaped. Two German officers in command of the Chen Yuen are reported to have met death with the crowd.

YOKOHAMA, July 31.—The following official statement of the difficulties between China and Japan has been issued by the Japanese Government: "Japan and China were approaching a settlement of their difficulties when China suddenly suggested that Japan withdraw her fleet from Korea and give a formal compliance with Chinese demands by the 23rd, otherwise the whole Chinese forces, both land and sea, were to advance upon that part of China."

The Japanese regarded this as an ultimatum, but acting under advice of friendly Powers agreed to the proposals in principle in an amended form, at the same time declaring that if the threatened Chinese advance was made on the 23rd it would be regarded as an overt act.

It is conjectured that the Japanese commanders were instructed to be on the watch for Chinese warships, and seeing the latter advancing on July 27th opened fire. The Japanese do not believe the Kowshung, the Chinese transport sunk by the Japanese cruiser was flying the British flag, but was using the flag as a ruse. The Japanese indignantly deny the charges of brutality brought against the officers and crew of the cruiser which sunk the Chinese transport.

The news of the battle was received here by private telegrams from Tientsin. If the report be true, of which there is little doubt, it means an end has been put to Chinese fighting on the seas. The Chen Yuen must have started from Tientsin after leaving the Chinese transports there. The two Chinese cruisers were supposed to be captured or destroyed during the engagement which ended so fatally for the Chen Yuen, the Chin Yuen and the Foo Ching. The Chin Yuen was a protected cruiser built in England, she had a displacement of 2,300 tons. The Foo Ching was similar to the Chin Yuen.

## Rain-making Experiments Successful.

YAKTONG, S. D., July 31.—Ten days ago rainmaking experiments were begun under the direction of two citizens. One ton of chemicals was consumed last night and a voluminous rain storm was ushered in. It extended over an area twenty miles square from the experiment station. Two and one-half inches of water fell. The rain saves the late corn and insures a heavy crop of hay.

## A Fatal Mill Explosion.

SONOMA, Cal., July 31.—An explosion of thirty-five pounds of giant powder in the Golden Gate mine at 2 o'clock this morning caused the death of Lafayette Carr and John Mazingren, two experienced miners, who had been sent to the 400-foot level to do some blasting. The accident is a mystery as both were instantly killed and literally blown to pieces.

## Spain Afraid of Cholera.

MADRID, July 31.—The Spanish Counsel at Marseilles having telegraphed that cholera is epidemic there, and that the authorities are concealing the actual situation, the Government has ordered stringent precautions to be taken at all Spanish ports on the frontier. A medical commission will be sent to Marseilles with instructions to report facts.

## The Tariff Conference.

WASHINGTON, July 31.—The Democratic members of the Tariff Conference Committee did not accomplish anything this morning. Chairman Voorhees of the Senate conferees and Wilson of the House were both absent on account of illness. When the meeting adjourned it was understood that the conferees would get together again at 1 o'clock.

## Wages Reduced.

CHICAGO, July 31.—The men employed in the ham department of Armour's Packing House were reduced fifteen cents per day to-day. It is not believed that they will strike.

## CALLING OFF THE MILITIA.

Six Companies Removed From Chicago.

CHICAGO, July 31.—Mayor Hopkins wired Governor Altgeld to-day to recall eight companies of the First Regiment, I. N. G. This order removes three of the six companies at Pullman and leaves but one company on the Illinois Central track—that at East Hammond. The Mayor said he felt satisfied that three companies at Pullman could maintain order. The Second Regiment is at the stock yards and will remain there for the present.

## A Big Robbery in France.

PARIS, July 31.—The police are investigating the most remarkable robbery on record. In an unaccountable manner a cask of gold from New York valued at \$30,000 was stolen while in transit from Havre to Paris.

The French line steamer La Touraine left New York July 21st for Havre with forty casks of American gold on board, valued at \$2,000,000. She arrived here Sunday. The forty casks of gold had been safely landed at Havre and placed complete on board the train running from Havre to this city. When the casks were counted upon their arrival here one cask, containing \$50,000 in gold, had disappeared.

It is believed that the gold was followed from New York by expert thieves who patiently awaited their chance to abstract one cask.

It was believed that several persons were concerned in the theft, for the cask weighed nearly 200 lbs, one man could not have carried such a load alone any great distance. The thieves probably hid themselves in a car in which the gold was placed and while on the way to Paris the cask was thrown out of the train and the robbers jumped after it.

## A Fearful Mistake.

PITTSBURGH, July 31.—John Lowe, chief clerk of the Edgar Thomas blast furnaces at Bessemer station, was the victim last night of a terrible mistake, which will cost him his life. A large quantity of carbolic acid was administered to him in mistake for medicine he was taking for nervous trouble. He had been ill, but last night retired feeling better.

During the night Mrs. Lowe went to a cupboard to get her husband's medicine. A teaspoonful with water was the dose, and an instant after it had been given him, Mr. Lowe was in terrible agony. His mouth, throat and stomach were burned by the fluid, which proved to be carbolic acid. Medical aid was summoned and the physicians relieved the pain somewhat. They said that Mr. Lowe could live only a short time, but was in a dying condition. Mrs. Lowe is prostrated over the fatal mistake, and fears are entertained that the shock will prove serious to her.

Mr. Lowe is well-known in this section. He is 55 years old and has a family. He is Past Commander of Bessemer Tent, Knights of Maccabees, of Bradnock.

## A Row in a Mining Camp.

PITTSBURGH, Kas., July 31.—This afternoon there was a row at a mining camp named Yale, about seven miles east of this city, in a joint, run by a negro named Tom Doss and a negress. They had new Winchester rifles and these were freely used. Doss and five other men were killed and seven men and as many women were wounded.

## The Labor Commission to Meet at Chicago.

WASHINGTON, July 31.—The labor commission appointed by President Cleveland to investigate the causes of the recent strike will hold its first meeting in the Post Office building at Chicago, August 15th.

## Shot His Son.

NEW CASTLE, Pa., July 31.—John Hollinger shot his son Frank in the face last night during a dispute. The young man will live.

SUPERINTENDENT FRICK of the Carnegie Steel Company, when questioned by the Naval Commission which is investigating the armor plate frauds, said "if the Government inspectors had done their duty there would have been no trouble." An exchange, commenting on the reply, says "we shall next hear of a burglar saying to the Judge, 'The duty of the officers is to guard the premises.'"

## A Bright Lad,

Ten years of age, but who declines to give his name to the public, makes this authorized, confidential statement to us:

"When I was one year old, my mamma died of consumption. The doctor said that I, too, would die, and all our neighbors thought that even if I did not die, I would never be able to walk, because I was so weak and puny. A gathering formed and broke under my arm. I hurt my finger and it swelled and I drew out pieces of bone. I hurt myself so as to break the skin. I was sure to become a running sore. I had to take lots of medicine, but nothing has done me so much good as Ayer's Sarsaparilla. It has made me well and strong."

**AYER'S Sarsaparilla**  
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass.  
Cures others, will cure you

## KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, *Syrup of Figs*.

Its excellence is due to its possessing in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

*Syrup of Figs* is for sale by all druggists in 50c and \$1 bottles, but is manufactured by the California Fig Syrup Co., only, whose name is printed on every package, also the name, *Syrup of Figs*, and being well informed, you will not accept any substitute if offered.

## LABRADOR EXPEDITION.

Professor H. H. Hite led a party into the Labrador interior.

Among the various expeditions this year which have for their object northern exploration, the one commanded by Professor Charles D. Hite of the University of Pennsylvania to Labrador is of much interest. Dr. Dawson, in his essay upon the unexplored parts of Canada, called attention to the fact that the greatest area of America still almost unknown lies within the bounds of Labrador. It is the intention of Professor Hite to take a party of 10 men to the interior of this country for the purpose of exploration and scientific research. The party will be taken north in the steamer Newfoundland by Dr. F. A. Cook of Brooklyn, who will soon be on his way to the Arctic regions. The explorer will be landed at Rigolette, Labrador, about July 4, whence a boat will take them to Goose bay, at the mouth of the Milne of Grand River.

Here the party will divide. Four men, including Professor Hite, will advance by the river, carrying their boats and provisions around the numerous and dangerous rapids. The remainder of the party will remain at headquarters on Goose bay and explore the region in that neighborhood, paying special attention to collecting the flora and fauna of the country.

Excursions will be made in the Mealy mountains for geological purposes. Mr. Lowe of the Canadian geological survey has found indications of vast deposits of the richest iron ore, and it is not at all improbable that more valuable mineral will be found on more extended research. Professor Hite and his assistants, after reaching the grand falls of the Grand river, which were found by Mr. Bryant to be 510 feet high, will determine their latitude and longitude and will then push on to the interior of Labrador, determining their nature, elevation, geological and other features.

After this short reconnaissance the party will return to the Nunipi river and explore that to Lake Aswanipi and from there to the gulf of St. Lawrence. Should there be no southern outlet to this lake the party will join the collecting division at Goose bay, where they will be picked up by Dr. Cook on his return from the interior. The expedition is being equipped with all the necessities, such as canvas tents, provisions and boats, for the journey. A large number of the articles used by the expedition will be of aluminum. The party, though a young man, has made a reputation as a naturalist and collector, having a wide range of work. He served as naturalist on the Peary Arctic expedition in 1897.—New York Sun.

## The Lady's Day.

"The boy is a splendid job." "We don't like his boys around here," said the boss. "Are you fond of work?" "No, sir," responded the boy, looking the boss straight in the face. "Oh, you're not a tin you? Well, we want a boy that is." "They ain't any," said the boss doggedly.

"Oh, yes, there are. We have had a half dozen of that kind here this morning to take the place we have."

"How do you know they are?" asked the boy.

"They told me so."

"So could I if I was like them, but I'm different. I ain't a liar," and the boy said it with such an air of convincing energy that he got the place.

## Repairing the Cable.

The cable company here started from Queenstown on a mission to repair one of the cable company's defective cables in 2,300 fathoms of water in the mid-Atlantic. The cable will have to be replaced for several hundred miles. The cable is sections cut out and new ones spliced in. The Mifflin took a lot of new cable, half of which is being used to mend some people's cables. The new cable would be a great improvement.

## RECEIPTS.

Mr. and Mrs. Joseph Marzen of Lovelocks are in town.

No better liver or kidney medicine was ever produced than Ayer's Sarsaparilla.

Garden hose, lawn mowers, paints and oils at lowest prices at Lange & Schmidt's.

Mrs. S. Bishop and her daughter, Mrs. Wells Drury, arrived from California yesterday morning.

The funeral of Mrs. Henry Thurtell will take place from the Episcopal Church at 4 o'clock this afternoon.

H. J. Thyes has been appointed agent for Reno and vicinity for the celebrated Shasta Mineral Water and Ginger Ale.

Miss Lillie Pearce left for San Francisco last evening where she goes to take a course as a professional nurse.

Yesterday was one of the hottest of the year in these parts. In the evening it clouded up and a light shower of rain fell.

The Epworth League gave a social at the M. E. Church last evening, which was a very enjoyable affair for the young folks.

Miss Flora Finlayson left yesterday morning for New York, where she expects to resume her duties in an opera company.

Hundreds have testified to the curative properties of Ayer's Cherry Pectoral in colds, coughs and other throat and lung troubles.

Anyone having a good second-hand lot water tank for sale can find a purchaser by addressing P. O. box 464, Reno, State price.

A notice regarding the purchase of a picture frame at the late "Old Horse" sale at Wells, Fargo's is of interest in the 50-cent column.

Engineer J. B. Doughty left Winnemucca Monday morning to attend the A. R. U. Convention to be held in Chicago to-morrow.

N. Wines, the stage man, was a passenger bound south yesterday morning. Mr. Wines is interested in a mail contract at Hawthorne.

The largest assortment of heating stoves, parlor stoves, cook stoves and ranges, crockery and lamps at panic prices at Lange & Schmidt's.

When the scalp is atrophied, or shiny bald, no preparation will restore the hair, in all other cases Hall's Hair Renewer will start a growth.

Charles R. Levers was down from Franktown yesterday. He says there are no apples in the valley and only about half the average berry crop.

C. T. Bender of the National Bank had a handsome little gold bar yesterday worth \$1,600, the result of a late clean-up at the Reduction Works.

Mr. and Mrs. Summerfield have gone to Santa Monica. They left their little son Lester at the hospital in care of Dr. Sherman, who is confident that the little fellow will be restored to health.

Some of the Salvation Army ladies left last night for California, their detail having expired here. It is expected that new officers will arrive in a day or two to take charge.

Jack Frost was arrested yesterday for assaulting Hughey Hughes with a deadly weapon. Frost stabbed Hughey near Carter's saloon, but did not hurt him seriously. It was the result of a drunken row.

The funeral of the late W. L. Needham took place yesterday afternoon from Hoskins' undertaking parlors. The services were conducted by Mrs. Mita Tupper Maynard who paid a high tribute to the deceased. A large cortege followed the body to Hillside Cemetery where the interment took place.

The Chinese about town seem to be taking considerable interest in the war now on between China and Japan. They seem to be pretty well posted on the trouble and when gaped about being whipped by the Japs they show excitement and reply that pretty soon they will clean them out.

## RESOLUTIONS OF RESPECT.

Kind Words From Mr. Foley's Political Colleagues.

CARSON CITY, Nevada, July 30, 1894.

Mrs. M. D. Foley, Reno, Nev.—DEAR MADAM:—In accordance with the instructions of the Republican State Central Committee adopted at its last meeting on the 28th inst., I herewith transmit a series of resolutions of regret for the death of your husband and sympathy for yourself. In doing so it is but proper for me to say that these resolutions were not adopted merely as the cold performance of an official duty, but on the contrary every member present manifested the deepest personal sorrow at the loss of our colleague, and the greatest sympathy for you in this, the greatest of all human misfortunes.

Kind and touching remarks were made by Messrs. Bartine and Grey, who were Mr. Foley's traveling companions on his last trip east, and also by Mr. Dodge of your town. I beg of you to accept these resolutions with the full assurance that they are but a feeble expression of the sentiments of every member of the committee. I remain most truly and sympathetically yours,

W. L. RANDALL.

Assistant Secretary.

## RESOLUTIONS.

Resolved, That the members of the Republican State Central Committee have learned with the deepest regret the untimely and tragic death of their former colleague the Hon. M. D. Foley.

Resolved, That in the death of Mr. Foley, the great principles of Republicanism have lost one of their staunchest defenders, and the State of Nevada, one of the most enterprising, energetic and patriotic citizens, whose every public and business act has been directed to the advancement of the best interest of the State and the promotion of the welfare of all classes of its people.

Resolved, That our heartfelt condolence is extended to the widow of our deceased colleague in her great bereavement, and we feel a sad pleasure in expressing the hope that through the sympathies of good and true friends and with the passage of time, her stricken heart may find its fullest measure of consolation.

Resolved, That a copy of these resolutions be transmitted to the widow of our deceased colleague.

Resolved, That as a further mark of respect the committee do now adjourn.

## A Runaway.

Considerable uneasiness was felt about the streets yesterday afternoon on seeing Geo. H. Taylor's buggy horse dashing through a portion of the town with a part of the shaft of the phaeton still hanging to him. It was feared for a time that a terrible accident had happened, but upon inquiry it was found that Mrs. Taylor had returned home a short time before and had hit the horse in front of the house and it is presumed that the flies annoyed the animal until in desperation he broke the hitch strap and ran away. The phaeton was somewhat damaged, but everyone was glad it was no worse.

## Electric Bitters.

This remedy is becoming so well known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise. A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove pimples, boils, salt rheum and other affections caused by impure blood—will drive malaria from the system and prevent as well as cure all malarial fevers. For cure of headache, constipation and indigestion try electric bitters—entire satisfaction guaranteed, or money refunded. Price 50 cts. and \$1.00 per bottle at S. J. Hodgkinson's drug store.

## Notice.

A meeting of the Democratic State Central Committee will be held at Carson City on Wednesday, July 25th, at 1 o'clock p. m. A full attendance is requested, as matters of importance will be brought before said meeting.

H. HARRIS, Chairman. je28td

JOHN O'TOOLE, Secretary.

## POSTPONED.

On account of the irregularity of running trains by the C. P. R. R. Co., the meeting of the Democratic State Central Committee, called for July 25th, is hereby postponed to Wednesday, August 15, 1894.

je20td H. HARRIS, Chairman.

## To Cleanse the System.

Effectually yet gently, when constive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds or fevers use Syrup of Figs.

## Probably True.

It is reported that Morris Sheline of the Eureka County Bank of Eureka has been offered the position of Assistant Cashier of the Bank of Nevada. If Mr. Sheline accepts he will likely assume the position immediately.

## Most Remarkable.

In its effects, and most useful in its application, the fragrant sozodont has become the most popular dentifrice in existence. It is used and praised by everybody.

William Killen was arrested by the U. S. regulars last evening for using improper language at the depot. He was held in custody for awhile, and on a promise to behave himself was allowed to go.

## THE REPUBLICAN STATE CONVENTION.

Why It Was Called so Early.

Less than a corporal's guard in number of the members of the Republican State Central Committee met in Carson and decided to hold the State Convention of the party on August 24th. Various surmises are afloat as to the cause of the Convention being held at such an early date, as it is usual for a minority party to hold its convention after the majority has put a ticket in the field. This, it is claimed by old politicians, gives it an opportunity to take advantage of any mistake the majority might make and to put its strongest men against the weakest on the majority ticket.

It was decided by the few members of the Committee who met at Carson to take a new departure and put the first ticket in the field. Some of the members held that by adopting this course they might succeed in getting enough candidates to fill the ticket. As a means of accomplishing this end it was decided to offer nominations to Silver men who have heretofore been identified with the Republican party. This is held to be a strategic movement of great importance. As one expressed it, "If we offer such bait as Governor and Congressmen we may be able to catch a few of the largest fish in the Silver party." "That is our only hope," said another, "and as we have nothing to lose, and may possibly gain something by it, let's try it."

It was then resolved to hold the convention ahead of all others. The fact that in many parts of the State the time for holding the primary election will have passed before the people will know that it was called, was deemed of no consequence as in those districts there are no Republicans. As one remarked, "it will be a proxy convention anyway as there are scarcely enough Republicans in some of these eastern counties for delegates if all should attend, and we can offer as an excuse for the meager attendance that they did not hear of the convention until it was too late to attend it."

## WHAT DOES IT MEAN?

A Singular Phenomenon in the South-western Heavens.

Last night just at two o'clock a strange phenomenon appeared in the southwestern horizon almost, if not quite, in line with the course of the meteor seen in that part of the heavens the other evening. A bright light similar to the tail of a comet could be seen beginning at a point about 20 degrees above the mountains and extending to the zenith, spreading out to a considerable extent as it reached its highest point. It resembled a large comet, but there were no signs of the star or head of such a mysterious visitor, except the fan-like tail. The light seemed stationary for some time, changing its color from a bright white light to a red glow, then gradually fading until it disappeared. During the time it was in view many shooting stars could be seen. It may have been an electrical display purely of a local character and it may be explained by some of our local scientists, but it was very interesting to those who saw it.

## How Much Did He Get?

Mrs. Potter and Kyrie Belle were scored by a Portland preacher on last Sunday evening. Both actor and actress were present in the church and the minister, Rev. Geo. R. Wallace, took advantage of their presence to call attention to the immoral plays they were producing at Portland. His comments were severe, and the actor and actress arose and left the church. As they were passing out through the aisle, Mr. Wallace called the attention of the congregation to the parties. It looks a little as if the Minister was in with the actors and had taken this method to advertise their show.

## It Should be in Every House.

J. B. Wilson, 371 Clay street, Sharpshooter, Pa., says he will not be without Dr. King's New Discovery for consumption, coughs and colds; that it cured his wife who was threatened with pneumonia after an attack of la grippe, when various other remedies and several physicians had done her no good. Robert Barber, of Cooksfoot, Pa., claims Dr. King's New Discovery has done him more good than anything he ever used for lung trouble. Nothing like it. Try it. Free trial bottles at S. J. Hodgkinson's drug store. Large bottles, 50 cents and \$1.

## Without Opposition.

The Eureka Sentinel is authorized to announce that Judge A. L. Fitzgerald of the District Court is a candidate to succeed himself at the coming election, and so far as it can learn he will be without opposition, which is a well deserved compliment to the gentleman's integrity and ability as a Judge, and his election is an assured fact, because of his early and emphatic identification with the Silver party, which will practically have no opposition in Eureka, Lander and Nye counties which constitute his district.

## Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25cts per box. For sale by S. J. Hodgkinson.

## Funeral Notice.

The funeral of Mrs. Henry Thurtell will take place from the Episcopal Church at 4 o'clock to-morrow (Wednesday) afternoon.

## BREVITIES.

Farmers can exchange hay, potatoes, etc., for lumber, etc., at the Summit Mills, Dog Valley.

A number of the Examiner's petition blanks are around town and quite an interest is being shown by numerous signers for the Government ownership of the railroads, etc.

There is a little flurry in Vice-President Stevenson's household. His daughter, Miss Mary, is in love with a clerk. The young man is poor, papa objects, but mama is favorable. The young people are disconsolate, as the stern papa has taken steps to separate the young lovers. It is likely the V. P. has some European "scab" in view with no money, but a played out title.

Those who doubt that silver dollars were coined at the Carson Mint when it was first opened can be convinced by calling at W. O. H. Martin's store, that such coins were minted at Carson in 1870. While the old silver dollars contain 412 1/2 grains of standard silver, the same as the standard dollar, the device is very different.

## ANOTHER JAPANESE VICTORY.

The Japanese are sending the Chinese war ships after McGinty, to the bottom of the sea. They sunk the Chen Yuen, of 7,400 tons displacement, and captured or destroyed two large cruisers supposed to be the vessels built by Armstrong for the Chinese Government. Few, if any, of the Chinese, who numbered about 1,000, escaped.

The Chinese can drive the Japanese out of Corea, as they can send millions of men to the front by land, but the Japanese are masters of the situation on the water and can destroy the whole Chinese fleet.

## Viavi's Record.

Four thousand dollars is Viavi's record in Reno since June, 1893. This of itself speaks of its value. Call and get a health book. Consultation free, at the Viavi Co.'s, on Fourth street.

Mrs. B. E. Hunter.

Religious. Don't Wash in Paris.

The church, being fond of striking contrasts, put forth all its pomp while the archbishop was going through the immunities of the coronation. Strictly speaking, there is no hot washing. The 12,000,000 men had their feet washed before they came to the cathedral.

When a crowd there in a row, stock-angled, but with fingers reaching those who by a salutation at Thonville, the archbishop's people attend, attended by his valets.

One of these each had a golden over, with a narrow neck, in which is seated water, and the other a bowl and napkins of fine damask linen. A footstool is before each old man. The basin is set on it by the archbishop. This done, the person whose feet are to be washed withdraws them from the canvas slippers and holds them over the basin. His grace then pours a few drops of water over each foot. The done, a towel is handed to him, and he wipes the water away.

As there are 12 persons to be attended to, this office, which is taken to symbolize Christian charity and humility, is repeated as many times. A grand procession, followed by an anthem, ends the service.—Paris Correspondent London News.

## Art Is a Stern Mistress.

"Miss Flimsyfluff is very gloomy," said one member of the opera company to another.

"Why?"

"You see, she's really fond of her art and hates to be divorced from it. She's too fond of her art demands."

## Only.

"I'll work my legs off to support you if you'll only love me."

"But I don't want a slave."

"Ah, candidate girl! What do you come?"

"To be."

"No, a millionaire."—Boston Gazette.

## For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used by millions of mothers for their children while teething. If disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth, send at once and get a bottle of Mrs. Winslow's Soothing Syrup. Mrs. Jennie Decker.

## "How Well You Look"

Friends Surprised at the Wonderful Improvement.

"C. I. Hood & Co., Lowell, Mass.

"Dear Sirs.—I take pleasure in writing the good I have received from taking Hood's Sarsaparilla. Every spring and summer for six years or more, my health has been so poor from heart trouble and general debility that at times life was a burden. I would become so

Emaciated and Weak and Pale that my friends thought I would not live long. I could do scarcely any work at all and had to lie down every few minutes. I began getting worse in January, lost my flesh and feeling so tired. I thought I would try Hood's Sarsaparilla and I am happy to say I am in better health

than I have been for a number of years. My friends remark to me, 'Why how well you look!' I tell them it is Hood's Sarsaparilla that has done the work. I would have all suffering humanity give this medicine a trial and be convinced. This statement is true to the letter." J. J. QUINN, JR., Lowell, Mass.

Hood's Pills cure liver pills, constipation, biliousness, jaundice, sick headache, indigestion.

COMPARE THESE PRICES WITH YOUR BILLS OR WHAT YOU HAVE PAID FOR THE SAME.
